

Please stop Sinclair from airing "Stolen Honor." The public interest is not served by the airing of any one-sided documentaries prior to the election. At the very least, the FCC should require Sinclair to also air a pro-Kerry documentary like "Going Upriver" during the same pre-election time period.

The disturbing trend toward ever-greater media consolidation threatens our democracy. The free use of the public airwaves by Sinclair makes it incumbent upon the corporation to present both sides of the Kerry Vietnam-service issue.

Respectfully,  
Susan R. Warncke
